Matt,

I'm happy that everything looks good to everyone. The spreader bars are back at the steel sets except 2 of them we used at the bulkhead, we will certainly get in there and get them re-installed. I think it probably is summer now, perhaps just before we start at the Gold King. I will have to get back to Denver to get the info for the extended cables. Let me know if you have anything else. Have a great Holiday.

Bob

Hi Bob. I went to the Golf Tunnel on Wednesday with EPA and DRMS to look at the bulkhead. It is definitely stopping the water. There are a few very minor seeps, but far less than the 2gpm spec. We'll keep monitoring it as pressure builds behind, but all looks good with the bulkhead and both EPA & DRMS seemed pleased. DRMS does need different wire and had a question about the strain gauge. I asked them to send me an email and we can figure out what they need and who needs to get it when we see the email. The other item DRMS would like is the spreader bars at the first steel set need to be put back. I think you took them out to get the skid steer through. They don't care if you do it this Winter or next Summer, but they would like the bars reinstalled so the toe of the set can't kick in. I didn't see the spreader bars outside the portal, so not sure what happened to them. Maybe they were used in the form??? That is all.

My address is:

Environmental Restoration
4870 Newport St
Commerce City CO 80022

I'll stay in touch regarding the return to Gold King as well the RFP for Red&Bonita. Thank you for all the support in 2014 and have a good Holiday/Winter Season.
Matt

Matt, how are you, just checking in to see if there are any outstanding issues with the Golf Tunnel project. I am in Louisiana and have been since 10/23, I should be getting back to Denver about the 4th or 5th of December. I plan on trying to call you latter this morning, but in case I don't get a hold of you I wanted to send you a note. I would also like to get a mailing address for you. It's been a pleasure working with you and I'm looking forward to doing it again soon.

Bob
